

ClearView for Alfresco Digital Business Platform

A Configurable, Unified & More Powerful User Interface

Your company has recently made the decision to standardize on Alfresco's Digital Business Platform, or perhaps you currently utilize Alfresco Process Services (APS) or Alfresco Content Services (ACS), or both. Each are excellent choices, and you are now poised to take advantage of the many features and capabilities of a modern process and content-based computing platform.

To effectively do this, however, your users need to have easy access to the processes and content for which they are responsible. They need a common and powerful user interface that enables them quick access to their work, provide comprehensive search capabilities, multi-level filtering, and fast response times.

ClearCadence understands that power, uniformity, flexibility, and consistency are the cornerstones of an effective user interface. That's why we developed **ClearView**, a configurable web application for the Alfresco Digital Business Platform that allows organizations to configure, implement, and use a single interface across Alfresco Process and Content Services. By utilizing ClearView, organizations put the processing power in each user's hands and allows them to work from a consistent interface and this in-turn improves efficiencies and lowers your overall deployment and training costs. With enhanced administrative functions, ClearView can also become the tool of choice for process and task management.

ClearView Features

Implementing ClearView within your organization is simple and straightforward. Deploy the ClearView solution to your Alfresco Application Server. Configure the search and task properties which bridges the two Alfresco environments (ACS and APS) together. From there, the ClearView services are activated and ready for each user's log-in.

Standard User Interface

Powerful. Consistent. Productive.

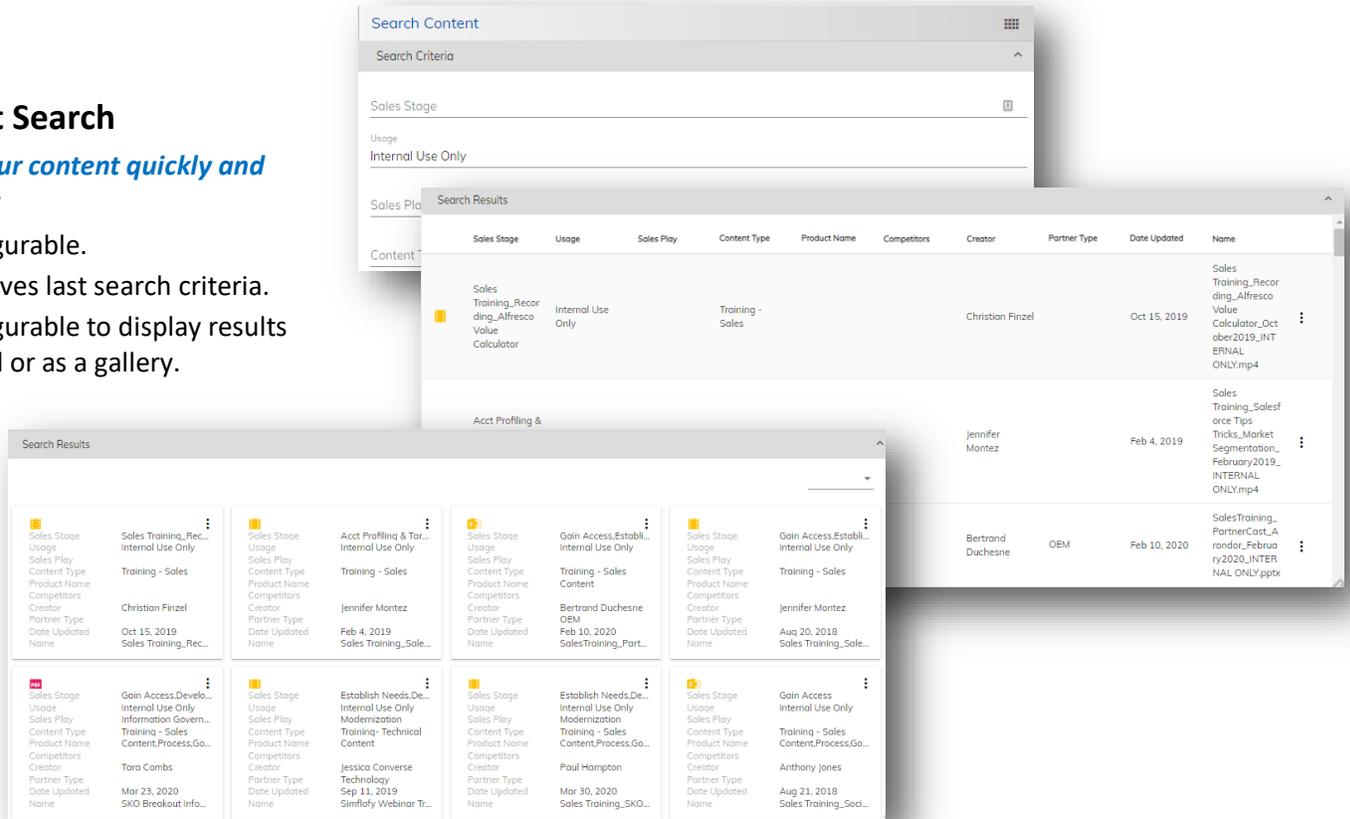

- ◇ More robust than the out-of-the-box standard platform interfaces.
- ◇ Provides a common user interface across all your Alfresco components and applications.
- ◇ Ability to switch to different applications with different data displays.
- ◇ Pagination of work list queues.
- ◇ Utilizes server-side components for lightning-fast processing and response times.
- ◇ Fully configurable Task Grid View columns.

Content Search

Locate your content quickly and efficiently

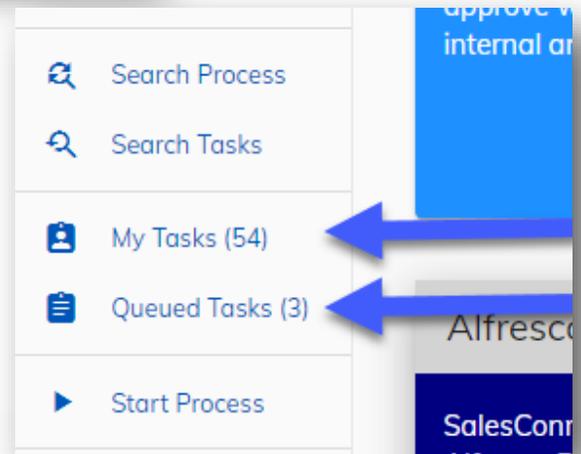

- ◇ Configurable.
- ◇ Retrieves last search criteria.
- ◇ Configurable to display results in grid or as a gallery.

Task Grid Display

Flexible. Configurable. Dynamic.

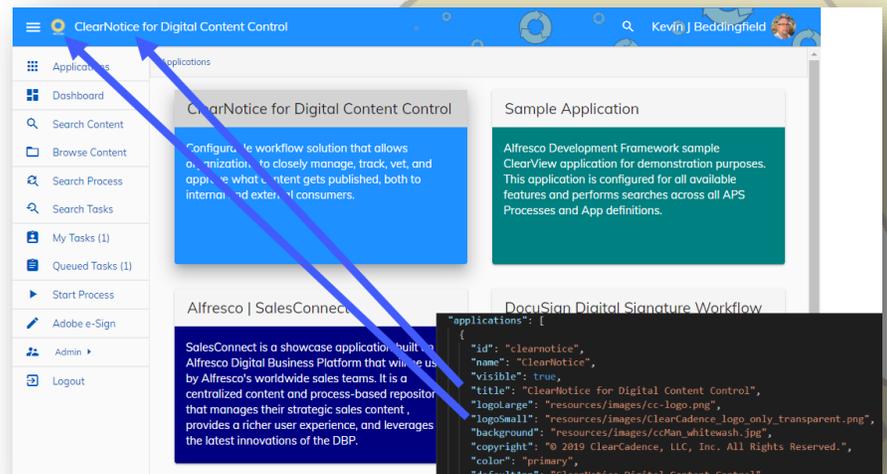

- ◇ Configurable.
- ◇ View tasks based on user roles.
- ◇ Provides multiple work list queues and task counts including:
 - ◇ My Tasks
 - ◇ Queued Tasks
- ◇ Custom properties displayed in grid-like format
- ◇ Ability to automatically lock tasks to users when clicked.
- ◇ Easy switching between multiple Alfresco Process-based applications.

Configurable & Customizable

Works across Alfresco Process and Content Service Applications

- ◇ Unified interface for Alfresco Process Services (APS) and Alfresco Content Services (ACS).
- ◇ Customizable logo & application name.
- ◇ Select your own color scheme.
- ◇ Switch between applications, role functions, departments or divisions.

Administrative Functions

Manage tasks without having to leave ClearView

- ◇ Terminate and/or Delete Processes from APS individually or in bulk.
- ◇ Manage Tasks by...
 - ◇ Finding tasks by an assigned user or candidate group.
 - ◇ Unassign a Task from a user to make it available to the group.
 - ◇ Assign a Task to a specific user.
 - ◇ Reassign a Task from one user to another user
- ◇ Task management can be done individually or in bulk.

The image shows two overlapping screenshots of the ClearView administrative interface. The top screenshot, titled 'Process Management', displays a 'Filter Process Instances' section with 'Process' set to 'CCP Imaging Demo' and 'Status' set to 'Running'. Below this is a table of 'Select Process Instances' with columns for 'Process Name' and 'Version'. The table lists six instances of 'CCP Imaging Demo' with versions 26, 26, 25, 25, 25, and 21. At the bottom are buttons for 'Terminate', 'Delete', and 'Clear'. The bottom screenshot, titled 'Task Assignment', shows a 'Filter Tasks' section with 'By Assigned User' selected. The 'Process' is 'Email Action Demo' and the 'Assigned User' is 'Admin'. Below is a 'Select New Assignee' section with 'User' set to 'Admin'. The 'Select Tasks' section contains a table with columns for 'Process', 'Task Name', 'Assignee', and 'Created'. It lists four 'Review Task' instances assigned to 'Kevin J Beddingfield' and 'Vijay Velu' with various creation dates. At the bottom are buttons for 'Reassign', 'Assign', 'Unassign', and 'Clear'.

Mobile Enabled

Business is not locked in an office. Take ClearView with you wherever you go

The image shows a mobile app interface on a smartphone. The top status bar shows the time as 6:35. The app has a blue header with a search icon and a hamburger menu icon. Below the header is a red bar with the text 'Applications'. The main content area features a card for 'ClearNotice for Digital Content Control' with a blue background and white text describing it as a configurable workflow solution. Below this is a card for 'Sample Application' with a green background and white text describing it as an Alfresco Development Framework sample application.

The image shows a mobile app interface on a smartphone. The top status bar shows the time as 6:35. The app has a blue header with a search icon and a hamburger menu icon. Below the header is a red bar with the text 'Applications'. A white search and navigation menu is overlaid on the screen, listing options: 'Applications', 'Search Content', 'Browse Content', 'Search Process', 'Search Tasks', 'My Tasks (1)', 'Queued Tasks (1)', 'Start Process', 'Adobe e-Sign', and 'Logout'.

The image shows a mobile app interface on a smartphone. The top status bar shows the time as 6:36. The app has a blue header with a search icon and a hamburger menu icon. Below the header is a red bar with the text 'My Tasks'. The main content area features a card for 'My Tasks' with a white background and a red border. The card displays a list of task details: 'Id: 511884', 'Notice Name: Regulation 2A', 'Task Name: Complete EXISTING...', 'Assignee: Kevin J Beddingfield', and 'Created (Age): 2020-04-29 15:22...'.

The Value of ClearView

Imagine, your business users no longer have to go to multiple applications to complete their work. One interface for expedient processing and research with the ability to integrate other applications within a custom user interface that is built for the Alfresco Digital Business Platform. And, the interface is expandable to other specific interface requirements to match your business needs. You have full power, control and your work is being performed consistently, efficiently and effectively.

Highlights
